The photo-time hair-removal comes out before your very eyes, leaving the skin as smooth and hairless as a baby's.

COFFEE WEEK
March 29 to April 3

THIS week, while grocers of the entire United States are devoting themselves to special displays of Coffee, it is highly desirable that the readers of this paper consider a few facts in regard to this most popular of all beverages.

This country drinks nearly one-half of all the Coffee grown in the world. And the American appetite for Coffee is constantly growing.

In the last six months of 1919 we Americans drank three billion more cups of coffee than we drank in the same period of 1918.

This liking for coffee by Americans is easily understood.

America is an active, virile nation.

As a nation we require food that sustains body and brain at high efficiency.

Coffee is pleasing to the palate, but it is also refreshing and invigorating. It supplies strength and staying power. It stimulates the brain and relieves fatigue of mind and muscle. It helps men and women to endure exposure and withstand hard work.

Let Coffee be your everyday drink. Drink Coffee because it is nourishing. Drink it because it lightens fatigue, sustains energy and aids digestion. Drink Coffee because it is satisfying and healthful.

Make Coffee Week the occasion for an intimate Coffee-chat with your grocer. He will see that you are suited absolutely on Coffee.

COFFEE
the Universal drink

Coffee is a delicious flavoring for cakes, puddings, ice cream and other desserts. Try Coffee for some of those less common purposes.
